European Powers Are Trying to Hold Carranza in Check to Keep Him From Bringing On War With United States—Allies Are Especially Active, Believing the Germans Helped to Inflame the Mexicans—Washington Anxious to Learn Effect of Note on Carranza as Whole Matter Is in His Hands—War Vessels Are Under Way—The Last Consul Has Come Out of Mexico—No Marching Orders for Mobilizing Militiamen.

(By Associated Press.)

Washington, June 21.—Strong pressure is being brought to bear on Carranza by representatives of European powers to prevent him from forcing a break with the United States. Indirect reports reaching the state department today told of these efforts and said there was a possibility they would be successful. The agencies of the entente allies are believed to be working for this end as they believe German influences have been responsible for the inflaming of the Mexicans.

United States officials today anxiously awaited word from Mexico City regarding Carranza's attitude toward the American note sent yesterday, for on him depends war between the republics. High officials admitted privately they looked for war. The only answer Carranza can make is action suppressing the outlaw treatment of Americans, and the officials feared against hope that this would not be done.
